## Objective :

A dedicated React Developer with a strong background in building responsive web applications. Passionate about delivering high-quality user experiences through clean and efficient code. Seeking to contribute to innovative projects and grow within a dynamic development team.

## Skills

- Technical Skills: React, JavaScript, HTML, CSS, Redux, RESTful APIs, Git, Webpack
- Soft Skills: Problem-solving, teamwork, communication, attention to detail, time management

## Experience

Internship:

- Frontend Developer Intern

InnoTech Solutions | Bengaluru, India

June 2023 – August 2023

- Developed and optimized user interfaces for web applications using React and Redux.
- Collaborated with back-end developers to integrate RESTful APIs.
- Improved website performance by implementing code-splitting and lazy loading techniques.

## Projects

### 1. E-Commerce Platform

- Built a fully functional e-commerce website using React and Redux for state management.
- Integrated with a third-party payment gateway and implemented user authentication using JWT.
- Designed a responsive and intuitive user interface, enhancing the user shopping experience.

### 2. Task Management App

- Developed a task management application with React that allows users to create, edit, and delete tasks.
- Implemented drag-and-drop functionality for task organization and used local storage to persist data.
- Employed React hooks and context API for efficient state management and seamless user interactions.

## Education

- Bachelor of Technology in Computer Science

SRMSCET | Bareilly, India

2019 – 2023
